Consulting uncovered: German Banking Edition & SEPA Solutions

Join our interactive workshop – **Consulting Uncovered: German Banking Edition & SEPA Solutions** focused on consulting for banks and financial institutions in Germany.

During the workshop, you'll learn how PwC helps clients in Germany tackle specific challenges in the banking and insurance sectors. You can look forward to an introduction to how PwC operates, insight into European Payments Regulations, real project examples from our consultants, and a hands-on session where you'll work in teams to solve a verification of payee vendor selection case study.

The workshop is intended for students with at least B1 level of German, as part of the program will be conducted in German.

What can you expect?

- Introduction to PwC – who we are, what we do, and our service areas.
- Presentation of real-life projects from the German market – explained clearly and simply.
- Insight into Banking Sector and SEPA Payment regulations.
- Interactive group case study using Kahoot.
- A small prize for the winning team.
- Networking with consultants working on German projects.

What will you take away?

- Practical insight into consulting work in the financial sector.
- Experience solving a real-life case in the context of SEPA Payments.
- Opportunity to practice German in a professional context.
- Contacts and inspiration to kick-start your career.
